English	Professional
Filipino	Native

WORKING STYLE

Client-focused, reliable, detail-oriented

Self-managed and organised

Clear remote communication

Quick to adopt new tools and workflows

PROFILE

Web developer with over 10 years of experience building and maintaining WordPress and WooCommerce websites, and more recently custom web applications. I work with PandaVisuals (Augsburg, Germany) on client projects: they handle design, and I take care of development, technical troubleshooting, hosting, deployment, and ongoing maintenance. I enjoy working out why something doesn't behave and building the thing that makes it work.

WORK EXPERIENCE

Web Developer · PandaVisuals (remote) — 2022 – present · Augsburg, Germany

- Develop and maintain WordPress and WooCommerce sites for clients in Germany and Spain: shops, rental platforms, multilingual and showroom sites.
- Troubleshoot live sites: broken checkouts, plugin conflicts, white screens, slow pages; fix the cause, not the symptom.
- Handle hosting, DNS, deployment, updates and backups after launch.
- Planned and built Panda Central, our internal dashboard for managing client WordPress sites (Next.js, TypeScript, Postgres, BullMQ), with substantial AI assistance; in daily use.
- Build static sites with Astro where a CMS isn't needed.

Web Developer · Jullie & Sands (remote) — 2018 – 2022 · Augsburg, Germany

- Developed, customised and maintained dozens of WordPress websites for international clients.
- Implemented responsive designs into WordPress themes; handled long-term maintenance, updates and improvements.
- Kept performance, stability and consistency across multiple WordPress projects, working remotely with designers.

Web Developer · PandaVisuals (remote) — 2014 – 2018 · Augsburg, Germany

- Developed and customised WordPress websites for international clients from design concepts.
- Responsive front-ends with HTML5, CSS3, JavaScript, jQuery and PHP; HTML email templates; 360° virtual tours with krpano.

Web Developer · Pandawebsolution — 2012 – 2014 · Las Piñas, Philippines

- Full lifecycle of website projects, from planning and development to deployment.
- WordPress sites from scratch with custom themes; HTML & CSS sites, HTML email and eBay templates.

SELECTED PROJECTS

Panda Central
Dashboard for managing WordPress websites: queued updates, history, notifications, client reports. Internal tool, in daily use.
NEXT.JS · TYPESCRIPT · POSTGRES · BULLMQ

Kaufbeiuns
Large B2B shop for an electronics and IT wholesaler with a deep catalogue across 100+ brands.
WORDPRESS · WOOCOMMERCE

Glanzstück
Rental platform for an events-equipment company, WooCommerce reshaped into a rental flow.
WORDPRESS · WOOCOMMERCE

RAJ Real Estate Services
Brokerage site with service pages, listings and partner developers for Tuguegarao City and Cagayan.
ASTRO · STATIC SITE

More work on dexteriglesia.com. Design on client sites by PandaVisuals; development by me.
